

19.82.110 Visibility at intersections.

A. There shall be a minimum clearance of ten feet between the ground and any part of a projecting sign or ground sign, as measured from the grade of the intersecting streets and located within the clear view of an intersection, which is a triangular area formed by the street property lines and a line connecting them at points forty feet from the intersection of the street lines. Any portion of a sign structure within the clear view of an intersection and nearer the ground than ten feet may not exceed ten inches in width, thickness or diameter.

B. A service sign located within the clear view of an intersection shall not exceed two feet in height.
(Ord. 1034 § 1 (part), 1988)
